FACULTY SPOTLIGHT

John Knox Named Recipient of 2024 USG Felton Jenkins Jr. Hall of Fame Faculty Award

John Knox, professor of geography and Josiah Meigs Distinguished Teaching Professor has been named the recipient of the University System of Georgia's (USG) 2024 Felton Jenkins Jr. Hall of Fame Faculty Award. According to the USG website, "These system-wide awards will recognize individual faculty and staff for a strong commitment to teaching and student success.

One faculty or staff award will be given for the research and comprehensive universities sector, one for the state university sector, and one for the state college sector for a total of three faculty awards." The University of Georgia has not had a winner of this award since 2015 and UGA has had only seven previous winners since this award was created in 1997. Dr. Knox is the first UGA Geography faculty member to be a recipient. He will be officially recognized at the annual Board of Regents' Scholarship Gala on Thursday, September 12, 2024 at Town Stage at Trilith Studios in Fayetteville, GA. At the event, he and other award winners will be recognized by the Chancellor, the Regents, and the Presidents of the USG universities.

The Felton Jenkins Jr. Hall of Fame Award is named after the late USG Board of Regents member, Dr. Felton Jenkins " In honor of his dedication to the mission of the University System of Georgia and his life of exemplary service to others. [Learn more about the award here!](#)

DOWNLOAD THE UGA SAFE APP

As the University continues it's effort to promote campus safety, we'd like to remind everyone of the powerful safety features in the UGA Safe App. Download the app to chat directly with UGA/ACC police, access a mobile bluelight, share your location in real time with friends and family, and access essential emergency information and resources from your smartphone!

In addition to these core features, the UGA Safe App also has links to on-campus well-being & prevention programs, UGA alert notification history, and a catalog of campus maps.

[Learn more about the UGA Safe App & download it here!](#)

General News and Announcements

The Graticule Weekly is distributed each Friday Afternoon. If you have any news or events you'd like to share throughout the semester, please share them with Matt Colonius well in advance.

[Past editions of The Graticule Weekly are available to view on our website!](#)

With the Spring semester in full swing, our community remains busy as faculty, staff, students, and visitors navigate our campus. Prioritize your transportation safety and the safety of other's by checking out [the Watch For Dawgs official website.](#)

Please download the new UGA Safe app from the Google Play or Apple App stores. Login using your UGA MyID or register as a guest to take advantage of a variety of safety features. For more information, please visit the [UGA Office of Emergency Preparedness website.](#)

OPPORTUNITIES AROUND CAMPUS

2024 Globe Lecture: Dr. Danielle Purifoy

Join us for a lecture by Dr. Danielle Purifoy titled: "Scenes of the Forgotten Black Forest."

Danielle Purifoy, JD, Ph.D (she/they), is an assistant professor of Geography and Environment at The University of North Carolina at Chapel Hill, where she also serves as a faculty project lead for the UNC Environmental Justice Action Research Clinic. Danielle's research intersects Geography, Law, Environmental Studies, and Black Studies to learn about Black placemaking practices from town formation to ecological stewardship.

STUDENT OPPORTUNITIES

★ This Week's Featured Opportunity ★

• [National Geographic Cartographic Intern, Disney](#)

About the Role & Program

Cartographers play a pivotal role within the storytelling framework at National Geographic! Maps serve as vital tools in conveying location and visualizing concepts and data that may be challenging to articulate through prose or photographs alone. This responsibility entails delving into a subject, identifying aspects that benefit from spatial representation, and engaging in an iterative process to ensure clarity for a general audience. These tasks span various media formats, including feature articles in National Geographic Magazine, digital releases, and interactive presentations.

This internship focuses on honing journalistic skills to locate the most up-to-date spatial data, craft pertinent maps to enhance and bolster narratives, and collaborate with subject matter experts to meticulously verify all information.

What You Will Do

- Create content for NGM and NGH, learning how custom cartography is created for a journalistic publication.
- Participate in all group meetings and content critiques, will be expected to complete assigned mapping on time
- Work on mining databases and GIS resources to analyze and map story data.
- By working with staff who do this on a regular bases, you will gain experience using GIS in a working environment
- Learn how a multidisciplinary story team constructs a project to be published on multiple platforms.
- You will be attached to one or more story teams assisting a staff cartographer.
- Work on short form content for the digital platforms providing mapping support to scheduled digital stories.
- By attending the daily digital meeting and working with the Manager, Digital Cartography, the intern will participate in story ideation and execution.

Required Qualifications & Skills

- Strong oral and written communication skills
- Analytical and organized
- Ability to handle and prioritize simultaneous projects and meet deadlines
- Self-motivated and resourceful, with the ability to work with minimal direction and exercise independent judgment
- Proficient in the use Adobe Creative Suite; Avenza Mapublisher; QGIS or other GIS software
- Adept at learning new software
- Curiosity about National Geographic and its core subjects
- Interest and knowledge of Geography

STUDENT OPPORTUNITIES

- [Maymester Field Study Service-Learning Opportunity](#)

This program is a service-learning Domestic Field Study course in which students will conduct field and academic research at UGA Marine Extension and Georgia Sea Grant facilities to write stories about the people and aquaculture of the Georgia coast. A week-long residency at the Penn Center on St. Helena Island, SC will provide students with an immersive learning experience in the Gullah Geechee culture of the Sea Islands as the starting point for our field work. Contact Dr. Elizabeth Davis at eadavis@uga.edu

- [Tutor with UGA Athletic Association Academic Support Services](#)

*Provide individual and small group tutoring to student-athletes in the Rankin Smith Student-Athlete Academic Center. Assist students in improving academic achievement by meeting with them weekly to clarify concepts, enhance study skills, and review class materials. *If you are interested, please reach out directly to Whitney Burton at wburton@sports.uga.edu*

- [Nelson/Nygaard Transportation Planning Summer 2024 Internships](#)

Nelson/Nygaard Consulting Associates is seeking Transportation Planning Interns to join our team during the summer of 2024. We're looking for students who are eager to gain hands-on experience in the transportation planning field. This is an outstanding opportunity to be involved in the firm's nationally recognized work in planning for more equitable and livable communities.

Our summer intern program is designed to give current students an opportunity to gain experience with planning work that helps shape our communities. You will work on and produce deliverables for some of our most exciting projects, supporting junior and senior planners with writing and research, data analysis and mapping, and client and community engagement activities. [Learn more here!](#)

- [GIS Specialist at The Ray](#)

The GIS specialist will report directly to the GIS Manager and will:

Support the development and management of GIS maps and applications

Perform geospatial data development and analysis

Efficiently manage geospatial databases and aerial photography

Accurately maintain geospatial database information by interpreting data from a variety of sources and creating, verifying, and updating information in the geospatial database through the use of GIS software and technologies

Acquire, process, integrate, visualize, and analyze geospatial data provided by The Ray's partners into existing GIS datasets, and GIS products

Attend meetings as requested by The Ray staff.

STUDENT OPPORTUNITIES

- [Summer 2024 Data Science Internship with OpenTopography](#)

OpenTopography is recruiting at least one Data Science intern this summer via the EarthScope Student Careers Internship Program. The intern(s) will work with the OpenTopography team to ingest and process data, and/or to develop workflows and services related to processing, analysis, and visualization of topographic data managed by OpenTopography. Open to graduate and upper-level undergraduate students, applicants must be authorized to work in the U.S. [Learn more and apply here!](#)

- [Community Planner and Grants Specialist Positions, NGRC](#)

The Northeast Georgia Regional Commission has two positions open, a Community Planner and a Grants Specialist. The job listings and responsibilities are posted on our website: <https://negrc.org/careers/>

We're looking for people who are creative and interested in working on community-based projects related to housing development, infrastructure, solid waste, development of public facilities, conservation, comprehensive planning, and community engagement. Good writing and public speaking skills are important, and some experience with graphic design and ArcPro would be preferred.

[Learn more here!](#)

- [Postdoctoral Position in AI and Census Microdata, Univ. of Utah](#)

The [College of Social and Behavioral Science](#) at the [University of Utah](#) is seeking applicants for a Postdoctoral Research Associate with an interest in applying Artificial Intelligence (AI) to US Census data. AI is having far-reaching effects as it moves into everyday systems, such as healthcare, education, policy, immigration, and criminal justice, often with a focus on individualized outcomes.

Interdisciplinary research is critical for developing "responsible" technologies that forward the public interest, recognizing AI as both a technological approach and a social practice (e.g. how humans are classified, how we identify technological problems, how we understand our society). Federal Statistical Research Data Centers, such as the [Wasatch Front Research Data Center \(WFRDC\)](#), located in the Interdisciplinary Exchange for Utah Science (NEXUS), offer a unique resource of census microdata, allowing the exploration of socio-demographic dynamics at an individual level, and there is a significant opportunity to apply AI methodologies to these data.

We seek a researcher interested in developing research that integrates AI methods with the type of microdata held in the WFRDC. The successful candidate for this position will have a record of working with socio-demographic data and AI methods, and a commitment to responsible AI applications.
